

## Kuidas teha kindlaks katuseakna tüüp?

Lisatarvikuid tellides on oluline märkida mis tüüpi ja mõõtu katuseaknale tarvik tellitakse. Seda teavet pakub Teile akna tüübikood markeerimistahvlil. Markeerimistahvli leiata akna küljest, kinnitatuna kas aknaraami ülaosale või ülemise kattepleki alla kinnitushoova külge paremal nurgas (vt. joonist):
